TECHNICAL SKILLS

Programming Languages
- Javascript
- Typescript

State Management
- Redux, Redux Toolkit, Zustand, ContextAPI, Recoil..

Tools
- Git, Figma, Postman

Frameworks
- ReactJS, React Native
- NextJs, VueJS.

Libraries
- MUI, React Query, Ant Design, Animation Gsap, Framer Motion, Socket Client, WebRTC,...

Others
- English (Toeic 650)
- Team work
- Responsive design

WORK EXPERIENCE

Front end developer | Feb 2024 – Dec 2024
EnglishWing

- Designing UX/UI, analyzing business requirements, maintaining and developing, and building the user interface.
- Working with technology platforms such as ReactJS, Typescript, React Native...
- Improving source code helps increase the performance of the web application

Front end developer | May 2023 – May 2024
FPT Polytechnic HCM

- Analyze, and develop user interfaces, debug and maintain web applications.
- Worked well independently and within a team setting
- Working with technology platforms such as ReactJS, Javascript, Typescript, Redux
- Improving source code helps increase the performance of the web application through optimizing the code, using some techniques to minimize the first page load time such as lazy loading, code splitting, memoization...

PROJECTS

Wing metaverse | March 2024 – July 2024

Description:

- Website for learning English combined with playing online games in real-time, with the ability to make direct calls with each other. Chat with the latest AI ChatGPT to support learning, and engage in global activities.

Responsibilities:

- Features include rendering maps, rooms for moving characters set up in real-time, designing and maintaining the source code and the website, connect Socket, call video RTC.

Technologies Used:

- ReactJS, Redux Toolkit, Axios, ReactQuery, FireBase, TailwindCSS, AntDesign, WebRTC...

FPT Polytechnic hands-on workshop | May 2023 – March 2024

Description:

- A large web system for managing projects of lecturers and helping students to register to participate in learning

Responsibilities:

- Build user interface, connect APIs from Back-end team, optimize source code and website performance.
- Perform some main functions such as authentication (JWT), notification (Real Time), set up API controller (Redux Toolkit), handle interface and logic of other functions of the website.

Technologies Used:

- ReactJS, ReduxToolkit, RTK Query, TailwindCSS, Material Tailwind, MUI, Ag-grid, Echarts...

Production link:

- xuongthuchanh.poly.edu.vn
